

Visser & Smit Hanab (UK) Ltd is a specialist cable and pipeline installation contractor operating both onshore, near shore and in the transition area between the two. Our Products and Services include development, financing, (pre)design, manufacturing, installation and servicing of outfalls, landfalls, directional drillings, thrust borings, pipelines, cabling and associated general civil, mechanical and electrical work.

Visser & Smit Hanab (UK) Ltd is committed to protecting the environment and subscribes to the principles of sustainable development. At Visser & Smit Hanab (UK) Ltd we realise that our activities have an impact on the environment. We are therefore committed to preventing pollution where we can by setting objectives and targets to continually improve our environmental performance.

Our commitments are to:

- Comply with all applicable environmental legislation and other appropriate requirements.
- Develop and implement an effective Environmental Management System that meets the requirements of BS EN ISO14001:2004.
- Develop and implement on-site environmental pollution prevention control measures.
- Minimise the use of natural resources.
- Use less energy in our operations by improving energy efficiency.
- Reduce waste going to landfill through appropriate waste management systems.
- Minimise nuisances that may arise from our activities.
- Train staff to ensure they are aware of their environmental responsibilities and their role in working towards a better environment.

This policy is communicated to all our employees, contractors, sub-contractors and is available to the general public. It is fully endorsed by our Management Team.

Visser & Smit Hanab (UK) Ltd will hold regular Environmental Management Review meetings to provide a framework for setting and reviewing objectives and targets.

Signed: 
J J L M de Moel - Managing Director
